▰▰▰▰ Who am I and what am I looking for?

After 8 years in the tech field, as a network and security engineer, where I learned lots of things and grow up as an engineer and a human being, I understood that I was happier leading a team and helping them to achieve big projects and grow in their skills. Moreover...

▰▰▰▰ Professional experience

Engineering Manager @ OVHcloud *(January 2020 - Present)* Team leader of the Network Data squad, composed of the Network Observability and the Network IPAM teams. * Point of contact for other teams and PU, for Network observability and IP related topics * Follow-up on projects * Creation of roadmaps with Program managers support * Agile methodology implementation and animation: sprint planning, daily, sprint review, retrospectives, etc.
